

EXPERIMENT for transformation

Study1

A series of dance films, beginning with Study1, as a character steps into an unfamiliar reality. Shortly thereafter, assorted aspects of her appear. Within a changing environment of shifting visuals, sound score and movement, she gathers her various selves together and progresses. The exploration for 'Experiment for Transformation' began March 2020.

Study1 is developing into a duet for two women, along with a third duet between a woman and man. Online workshops will explore transformation within a format of an experiment.

project workshops

EXPERIMENT: grade school fun, the workshops will focus on observing the beauty and struggle of a growing seed, creating movement. Exercises include working on one's own and with others, and will develop into short pieces, possibly to be incorporated into the project.
